

The amazing health benefits of Thai Massage Therapy

Thai massage has to be the oldest healing treatment in the world.

We don't need to tell you about the lifestyle factors that may be affecting you at work or home, but we can say that a massage treatment will help you feel better, both mentally and physically. By feeling more relaxed, you will have more energy and be better able to manage the issues that life throws at you.

Manipulating, twisting and stretching your body will improve the working of your muscular, nervous, circulatory and lymphatic (immune) systems.

Your massage can be gentle or strong. It can be full or part body.

We will ask you to answer some questions before agreeing treatment. We'll then design a personal treatment plan that suits you.

Our therapy can help you take charge of your health and well-being, but if any part of your massage doesn't feel right or is painful, do speak up straight away.

Authentic Thai Therapy in Far East London

Lavender

Lavender Thai Therapy Trading name of Amazing Thai Therapy Ltd

Welcome to Lavender Traditional Thai Therapy.

If you have visited Thailand, one of the things you are unlikely to have missed, is getting a massage. By coming to see us, here in far east London, we are confident that your experience will be the same as if you were on holiday in the "Land of Smiles". We provide the best relaxing massage treatment with hygiene being our number one priority.

Our place is modern, bright and clean. Every member of our staff is fully qualified. We have five private treatment rooms with dimmable lighting and quiet relaxing music. Each room varies a little; some have wooden beds, or simply a large mattress on the floor, all suited to delivering the type of massage best for you. Two of our rooms have guide rails to support the therapist who may walk on your back as part of your treatment!

All our rooms are easily accessible and we have shower facilities. Fresh clean towels are provided, along with bottled water at the end of the treatment. You can use our free Wi-Fi, but we're not certain that you really need this!

Our Massages

Thai Traditional Massage

Expect to be stretched and twisted into various positions. This is good for your blood circulation and improving your energy level.

Thai Hot Stone Massage

Your therapist uses heated stones in different areas around your body to ease any muscle tension. This improves blood flow, and can alleviate pain.

Thai Sport Massage

Use sports massage to increase flexibility and performance. We can use soothing Tiger Balm during this treatment.

Thai Deep Tissue Massage

This strong massage is good for relieving muscle tension. The massage will be more intense.

Swedish Massage

This is a gentle type of full-body massage. It is ideal for people who are new to massage and just need to fully relax.

Couples Massage

This is where you have a massage of your choice with your partner, friend, or family member in the same room.

Body Scrub Massage

The treatment exfoliates and hydrates your skin, leaving it smooth and soft. We include a shower during or at the end of your session.
